

K-Bee Leotards Size Chart

Select the size that best matches your measurements. If your measurements do not all fall within the same size, choose the size that best matches the largest of your measurements. For leotards, the torso measurement is most important, followed by chest and hips. Torso measurement is taken from the shoulder through the crotch and back up to the same shoulder. If you need additional ordering help, please ask the IEGA front office and they can make recommendations or have you try on one of our consignment leotards for accuracy.

Leotards

Girls/Womens: (inches)

Size	Chest	Waist	Hip	Torso
Childrens 3/4	20 – 21	18 – 19	21	35 – 36
